

Filling a space in a beautiful way – that is what art means to me.

Georgia O’Keeffe

Our story begins with one man’s dream. A person sensitive to art and beauty who appreciates good design, which he seeks in travels, nature and experiences. His desire is to make an art in a different way than usual. He wants to reflect it in wooden furniture.

The idea that has been guiding us from the beginning is to create furniture, which after finding its owner become a part of his life, not only because of its function, but also because of its appearance and style. Original designs, refined details and beautiful, natural wood are the elements without which we could not exist. We want our furniture to be a piece of art that is not only admired but also used in everyday life.

Tables at which life goes on. Sofas and armchairs on which you can relax after a long day. Chests of drawers that hide all the treasures of home. Furniture with a soul.

Discover our latest designs. Invite us to your home and let’s create a shared history for years.

DÉCOR

The Décor Collection refers in its form and details to the Art Déco style. Furniture created as part of this collection combine elements of wood and brass, which give it a unique, elegant character.

The collection's design is intertwined with original, but practical solutions, and the whole is closed in the form of objects made with the highest quality and precision.

MUZO

MUZO

The Muzo Collection is a combination of classic elegance and modern freshness. This furniture, which arose as a result of inspiration with music, instruments and their slender, delicate lines. Class and elegance are terms that fully reflect the character of Muzo. The uniqueness of the collection is emphasized by the materials from which it was made: natural cherry wood, marble and details finished in black, high gloss or chrome.

BAO

Furniture from the Bao collection were created with the combination of two contrasting colors of wood. High, geometric legs at the base of the furniture give it a chic and magnificence, thanks to which it perfectly fits into spacious interiors.

One of the elements of the Bao collection is a tall sideboard with a spectacular decorative tree cut out on the fronts. This furniture is a decoration in itself and can be the central point of the interior in which it is located.

GALLIA

GALLIA

The inspiration for the creation of the Gallia Collection were Mediterranean apartments - full of sunshine and a fresh breeze from the sea. Furniture created as part of the collection is characterized by classic design in a very gentle edition. A delicate, decorative element is a round, milled disk placed centrally on the furniture.

Natural oak wood was used to create furniture, which perfectly harmonizes with the climate of sunny, warm interiors, giving them a unique, homely atmosphere.

FINISHES

Ziemann Home Décor furniture is the result of the work of several dozen craftsmen in combination with a technologically advanced machine park. The final touches on all the furniture are made by hand, thanks to which we get perfectly smoothed surfaces and we can go to the next stage of finishing them - oiling or varnishing. We oil the furniture by hand, which ensures a high degree of precision and accuracy of the finish. The oils used for this process are natural, resulting in the wood not losing its original colour and maintaining its unique aroma, while also maintaining a raw and modern character. For the varnishing process of furniture, we use varnishing machines that protect the furniture surface as a result of the spraying process. Lacquered furniture assumes a unique, classic character, and those with an antique finish get an additional scraping process that makes the furniture look more elegant.

FABRICS

In our offer you will find over one hundred high quality fabrics, selected by our furniture designers. When choosing fabrics, we focus primarily on quality, but also value their originality and timelessness. We directly contact the best producers as well as manufactures and renowned fabric designers. All materials used for upholstered furniture come from England, Belgium or Italy, and some of them were created in the form of unique, limited collections.

VELOURS

Among the types of upholstery we offer, special velour fabrics occupy a special place. Made of soft and fluffy pile yarns, they work well in both modern and classic interiors. When cared for, they serve well, and are pleasing to the eye, despite the passage of time.
