THE COMPANY

HISTORY

Wood. Passion. Beauty.

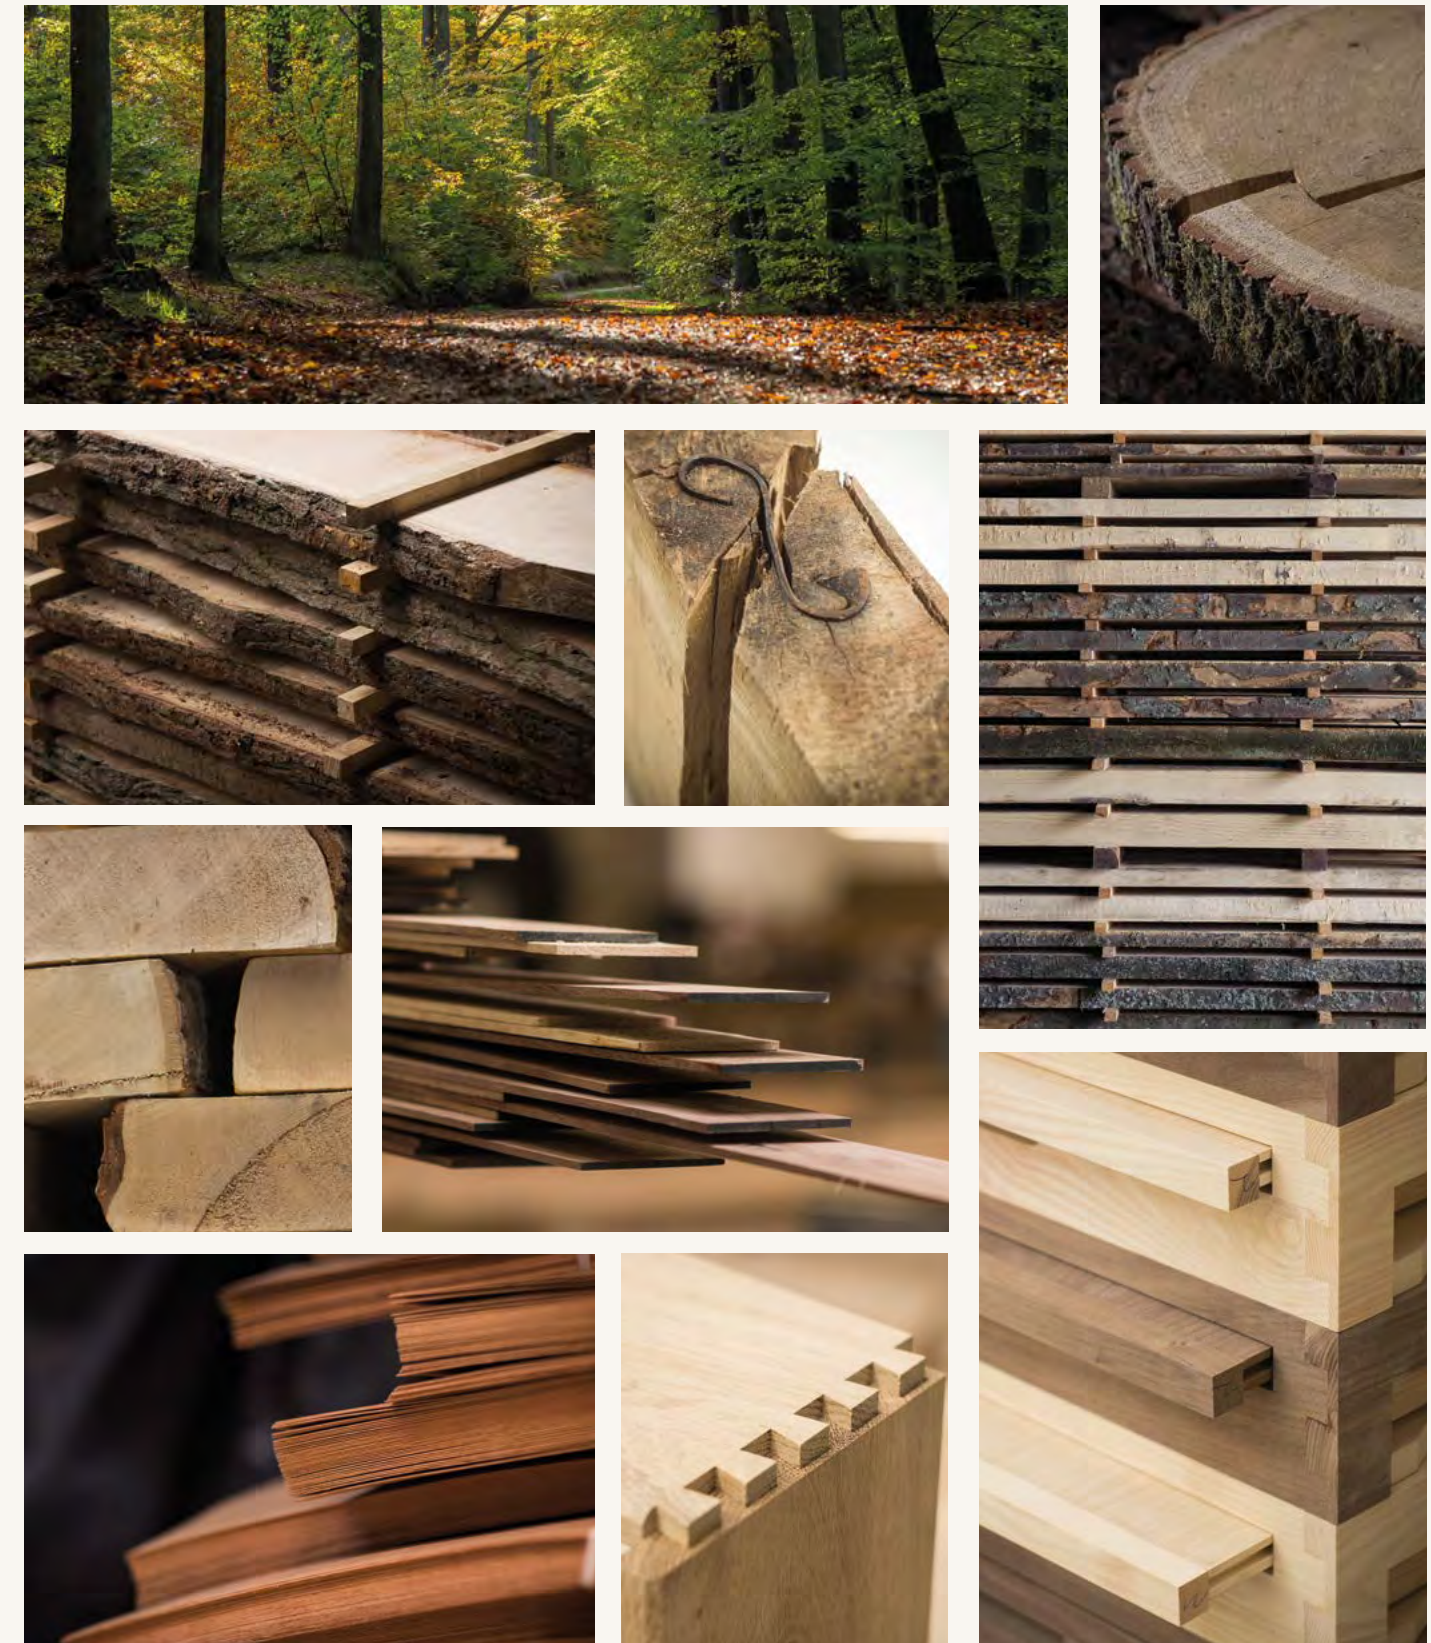

These three elements gave rise to the concept of creating durable items with the highest quality and precision of workmanship. Items that are part of everyday life are infused with beauty which is perceived by each of us in a different way.

PHILOSOPHY

Wood is a unique and luxurious material for us, through which we express our passions and inspirations, found among other in art, nature and different cultures around the world. The universal belief that each of us is different and sees beauty in various aspects of everyday life, resulted in styles and collections of Ziemann Home Décor furniture. We want our Clients to find a part of themselves in the range of our products, so that the furniture produced by us will complement their private space. We strive to make furniture, that reaches our Customers to be their best choice, ideally suited to special needs, tastes and character of the interior.

CREATING

The furniture we create is the fruit of the work of many professionals - from designers, through carpenters to upholsterers. They combine unprecedented experience, professionalism and reliability at work, which combined with the latest technology and a modern machine park, allows us to achieve the best results and create exclusive high-quality products. While working on each piece of the furniture, we take part in the whole process of its creation and we are present at all stages of production. We design furniture, the form of which is shaped by the function, while paying attention to the smallest details. We choose the best types of raw materials from which our furniture is created - trees, fabrics, and added elements and details. We do not go through any shortcuts - we have our own sawmill, wood drying hall and a production plant, thanks to which we are sure that we give the Customer a product that is not only unique and timeless, but also solid and durable. This is how the elements that make the interior of your home or workspace are created - the Ziemann Home Décor furniture.

GEO

GEO

The Geo Collection is modular furniture with straight lines. A characteristic element of decoration is the inlay which creates a geometrical pattern on the front of the individual drawers in the chests of drawers and in the bookcase.

„The geometric, timeless design of the décor and the contrasting combination of colours was an attempt to create a simple, yet visually rich furniture.”

DETAILS/FINISHES

The Collection consists of modular chests and an open bookcase with a set place for a TV. The GEO Collection is available in three finishes. There is the possibility to choose the colour of the glass for the TV compartment: opal, brown, mat or transparent. The countertops of the chests of drawers are enclosed in a frame made of another type of wood. The drawers are opened using a “push to open” system. At the base of the chests of drawers there are legs finished off with metal endings.

DUNN

DUNN

The Dunn Collection refers to Danish furniture from the 1960s. The box furniture and tables have characteristic, oblique legs, adding originality to the simple lumps. The whole collection is distinguished by geometric shapes, sharp edges and a lack of handles, giving the effect of modern minimalism. The collection also features artistic forms of décor in the form of mosaic fronts of the chests of drawers.

DETAILS/FINISHES

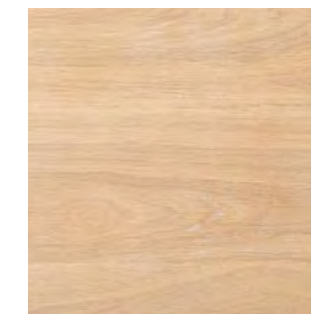

The Collection consists of bedside tables, coffee tables, living room tables, desks, bookcases and a wide variety of chests of drawers – with open shelves and lockable drawers. The Dunn Collection is available in four finishes. The drawers are opened using a “push to open” system. The base in most of the pieces of the furniture in this Collection consists of oblique wooden legs.

ANE

ANE

The Ane Collection refers to classic Gustavian style furniture, which originally came from Sweden. A constant decorative element in this Collection is a frame with decoration in the form of a braid. At the edges of the frame there is a decor with a floral motif. The legs have the shape of cut cones with sharp edges and a delicate decorative milling cutter at the edges.

DETAILS/FINISHES

The Collection consists of bedside tables, coffee tables, a writing desk, console tables, benches and seats, chests of drawers, cabinets and wardrobes, bookcases and beds. The Ane Collection is available in seven finishes. The shelves are opened in two ways. In the console tables, writing desks and bedside tables they are opened from the bottom without a handle. The bedside tables have additionally a self closing mechanism. In the chests of drawers and wardrobes the drawers are opened by handles with a self-closing mechanism. The bookcases are built up at the back with openwork sides. Fronts of the cabinets and wardrobes have a décor in the form of a classic frame. The doors are lockable with a key.

URDI

URDI

The Urdi Collection is a classic referring to the Provencal style, best presented in bright, natural colours. The decorative elements of the Collection are wooden, openwork muntin bars that intersect at an angle or in the form of circles, as well as milled tops of shelves, showcases, sideboards and chests of drawers.

BUGSY

BUGSY

The Buggy Collection refers, in its style, to Bauhaus - it is built primarily from durable and classic materials to give functionality to the furniture. It consists of simple, geometric and proportional shapes, balanced with incredible precision.

Various textures are combined - natural, oiled wood with metal, chrome or brass, furniture trim in the form of handles and legs.

AMARANTH

AMARANTH

The Amaranth Collection is preserved in the characteristics of Scandinavian style furniture. The Collection is characterized by a modern and simple form, smooth surfaces and rounded edges. A soft line of furniture, as well as oblique, tapered legs, give the lightness to a raw-styled collection. The elements that make up the Amaranth Collection provide convenience and comfort of use, coupled with elegance and good taste.

RIDDLE

The Riddle Collection means unlimited possibilities of creating furniture for individual user needs. Six different modules included in the Collection enable designing furniture from a bedside table to expanded shelves with various functions - they can have drawers, doors, dividers or an open shelf.

Riddle collection also includes a pedestal with a height of 10 cm, on which individual cubes are placed. Its length depends on the number of bookcases used.

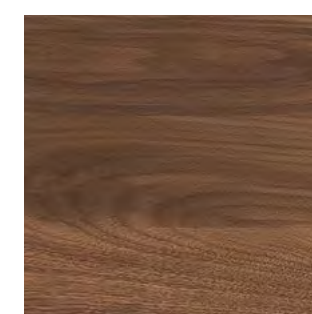

DETAILS/FINISHES

The Collection consists of module bookcases in the shape of cubes with open shelves or drawers, and also with cabinets with wooden or glass doors, and shelves with vertical compartments. The Riddle Collection is available in two finishes. The outer part of the shelves is enclosed in a frame in a contrasting colour of wood. There is a possibility to choose the inside colour of the cubes from among black, red, gold or natural wood. With Riddle cubes you can create shelves, chests of drawers and cabinets, consisting of any number of cubes, adjusted to your needs. They are joined with one screw in the center of each wall, covered with a decorative metal element made of stainless steel. The Collection includes a pedestal with a height of 10 cm, on which shelves are placed. Its length depends on the number of cubes used.

RIDDLE MODULAR SYSTEM

Sample scheme of the Riddle Modular System.

The Riddle Collection gives you even more possibilities - going one step forward has been creating an option to custom-make furniture, tailored to individual Customer needs. The furniture design system from the Riddle Collection is based on the modules shown in the diagram below - with its help, furniture is created based on the Client's own idea, which allows the furniture and its functionality to be adjusted to specific requirements. In addition to designing a piece of furniture consisting of selected modules, internal equipment is selected, such as: drawers, shelves, compartments or rods, as well as wooden or glass fronts of the furniture.

FINISHES

Ziemann Home Décor furniture is the result of the work of several dozen craftsmen in combination with a technologically advanced machine park. The final touches on all the furniture are made by hand, thanks to which we get perfectly smoothed surfaces and we can go to the next stage of finishing them - oiling or varnishing. We oil the furniture by hand, which ensures a high degree of precision and accuracy of the finish. The oils used for this process are natural, resulting in the wood not losing its original colour and maintaining its unique aroma, while also maintaining a raw and modern character. For the varnishing process of furniture, we use varnishing machines that protect the furniture surface as a result of the spraying process. Lacquered furniture assumes a unique, classic character, and those with an antique finish get an additional scraping process that makes the furniture look more elegant.

FABRICS

In our offer you will find over one hundred high quality fabrics, selected by our furniture designers. When choosing fabrics, we focus primarily on quality, but also value their originality and timelessness. We directly contact the best producers as well as manufactures and renowned fabric designers. All materials used for upholstered furniture come from England, Belgium or Italy, and some of them were created in the form of unique, limited collections.

VELOURS

Among the types of upholstery we offer, special velour fabrics occupy a special place. Made of soft and fluffy pile yarns, they work well in both modern and classic interiors. When cared for, they serve well, and are pleasing to the eye, despite the passage of time.
